

BioEnzyme Floor & Hard Surface Cleaner

DESCRIPTION & BENEFITS

BioEnzyme Floor & Hard Surface Cleaner is powered by natural multi-enzyme technology with biodegradable surfactants. A completely natural alternative which is; biodegradable, non-bacterial, non-hazardous, non-toxic, non-corrosive, non-flammable. With a higher concentration of enzymes compared with competitors, **BioEnzyme Floor & Hard Surface Cleaner** contains a soap-free multi-enzyme formula designed to break down grease, oil, and food waste. The multi-enzyme formula destroys the grease and grime, naturally lifts grease from grout lines and eliminates odours. It has been designed to discharge down the drain where the enzyme formula will continue to attack the grease and food waste. A more sustainable cleaner, **BioEnzyme** also improves surface friction for floors, creating better grip and less slip, minimising the risk of falls or injuries.

Code No 892

- ✓ pH Neutral
- ✓ Multi-Enzyme formula naturally destroys grease, grime, oil and food waste
- ✓ Eliminates odours
- ✓ Long-lasting performance
- ✓ Sanitiser
- ✓ Increased slip resistance

DIRECTIONS FOR USE

Light Cleaning: Use 1:100 parts water (100mL to 10L of water) to mop the area leaving a thin film of water across the Surface and allow to dry. Floor & Hard Surface Cleaner will continue to break down grease and organic matters while increasing slip resistance over the next 24 hours.

Heavy-Duty Cleaning: Use 1:50 parts water (200mL to 10L of water) to mop the area as above and allow to dry.

ENVIRONMENTAL ASPECTS

- ✓ Biodegradable Surfactants
- ✓ Safe for food processing areas & septic tanks.
- ✓ No phosphate
- ✓ Highly Economical
- ✓ Completely natural ingredients
- ✓ Enzyme technology

PRODUCT AVAILABILITY

This product is available in 5L and 1L.
