

Odour Fresh

DESCRIPTION & BENEFITS

ODOUR FRESH blocks are air-activated and slowly evaporate when in contact with air. Since they do not actually dissolve in water or urine, but only sublimate into the air creating a refreshing odour that masks the urine smell with a gradual reduction in size.

ODOUR FRESH blocks are perfumed blocks which are used in toilets and urinals to suppress malodours and freshen the air. These blocks are more than 99% active p-Dichlorobenzene having a short half-life in the atmosphere and are considered readily biodegradable.

- ✓ Highly concentrated formula
- ✓ Slow volatilising blocks reduce unpleasant odours in toilets and urinals
- ✓ Long lasting lavender fragrance
- ✓ Suitable for use in commercial as well as domestic
- ✓ Leaves water contamination free

DIRECTIONS FOR USE

Place the blocks above the urinal drain which gradually evaporate leaving no residue. Used as commercial and domestic odour suppressant. Wash hands after use.

Code No 750

ENVIRONMENTAL ASPECTS

- ✓ 100% Organic Material
- ✓ Readily Biodegradable
